# Choose Axis

We Strive to be an Extension of Your Family

## Early Intervention

Early intervention has proven to be crucial to the healthy development of toddlers and young children showing signs of autism and developmental delays. Early intervention focuses on helping the child learn the basic skills that typically develop during the first three years of life, such as: cognitive (thinking, learning, solving problems); communication (talking, listening, understanding); social/emotional (playing, feeling secure and happy); and self-help (eating, dressing). The sooner you can start working with a child, the better chance he or she has of reaching their potential in daily living.

### CAREERS

Axis is always looking for energetic, highly-motivated individuals to join our team.

## THE AXIS MISSION

Our mission is to assess the whole child by using developmental appropriate assessment tools and evidence-based treatment methods in order to develop and implement comprehensive, effective, and personalized treatment. Axis provides services to children and families living with autism, developmental disabilities, and behavioral needs.

As a family-owned business, our goal is to be an extension of your family in your journey.

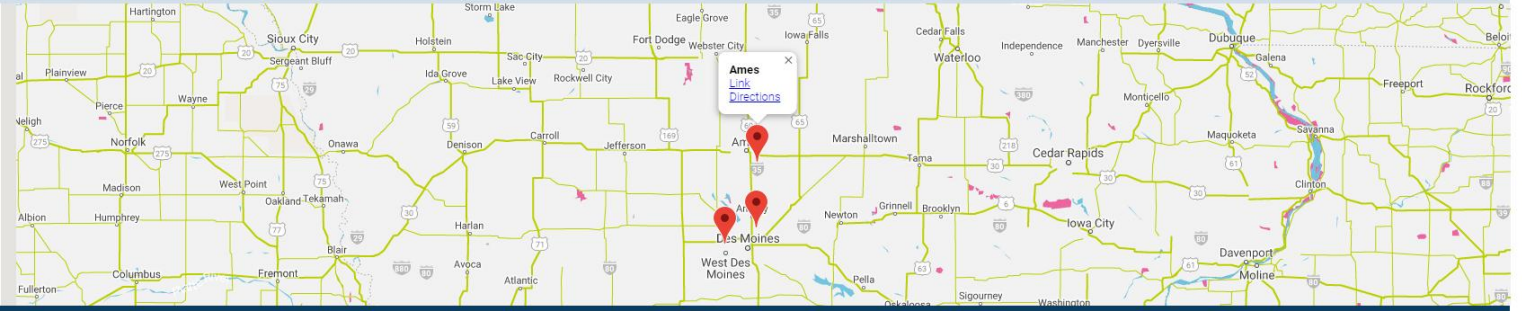

1-Year Accreditation

## Diversity Statement

"We are committed to diversity within the company and ensure that our focus is on the person and their performance or skill set when hiring or promoting. Axis is committed to hiring diverse groups of people and treating everyone with respect no matter their background."
