DESCRIPTION

The Ultimate Rock Tire

The XT Warrior SlikRok Edition is the ultimate rock tire. This 35x10-15 tire has a 35" diameter to roll over tough terrain and the 15" wheel diameter you need to easily install a GDP 4" Portal Gear Lift. Combined with our patented lug design, it's a rock crawler's dream and exactly what the rock crawling experts at SlikRok Productions ordered up.

SlikRok Approved

We teamed up with industry leading rock crawling experts, SlikRok Productions, to design the ultimate rock tire. The guys at SlikRok live, eat, and breathe

FEATURES

rock crawling and haul from the sandstone rock gardens of Utah. When they said it needed the perfect combination of size, tread, rubber compound, and versatility, we made sure to listen. Our design gives rock crawlers the control and grip they need to dominate the rocks and ride the trails in between. The best part is we built in SlikRok's #1 requirement—it fits on 4" GDP Portal Gear Lifts. From top to bottom, these tires are SlikRok approved.

Designed to Grip

These tires grip where others slip! We packed the XT Warrior SlikRok Edition with features to ensure maximum traction. The 1" tread depth and patent *modified raised siped pattern* under the sipes, the *hundreds of flexors*, and the *grip ribs* between the sipes keep these tires from sliding. The

★★★★★

Super atv Slik Rock warriors

I have the 35" Bad ass tires. Climb good, clean out well in the mudd would like to see some 33" come out.

★★★★★

Outstanding 35" Warrior ET Slickys

What a difference. I had been running 35" STI Chicayne's, which are great trail tires, but I have switched to rock crawling. Worth the price

★★★★★
Very nice tire. Rubber compound
Very nice tire. Rubber compound is soft for rocks but has deep tread depth and excellent design for clean out. Great addition to our KRX 1000.
