

Our client's success is our business

ARTdynamix™ was developed in our creative think tank to support the arts.

With a team of industry professionals behind it and a passion for the arts, we have developed a data centric CMS that is a true original. A software designed for improved visibility, better engagement, and an excellent conversion rate.

By working closely with some of the world's largest organizations we are able to bring you a tried and true arts marketing machine.

Our Values

We are here to contribute to the ongoing success of the arts.

Designed Just For You	24/7 Support	Lots of Features
<i>Limitless possibilities have been carefully designed to help our customers increase revenue and reach a wider audience.</i>	<i>We are here for you to make sure your marketing efforts are working seamlessly for you, even when you are asleep.</i>	<i>Over 100 modules at your fingertips to help reach, capture, engage, and maintain your customers.</i>

Leadership Team

A team of experts are here to help you drive your business forward.

Nami Ataee

CHIEF TECHNOLOGY OFFICER

Our founder and visionary has been working on the web since it's inception. And almost since then, he has been thinking about efficiencies, advancements and how this thing called the internet can change the world.

LaMae Weber

CHIEF EXECUTIVE OFFICER

An entrepreneurial CEO and a force to be reckoned with. Whether presenting breaking trends on the web at a conference in China or managing field office operations for a national environmental consulting firm, her commitment to excellence sets her apart from the rest of the field.

Our industry partners

Our software works harmoniously with almost every ticketing system as well as...
