

ADVANCING
INNOVATION
WITH MERIT

MERIT is an innovative specialty CRO providing clinical trial data collection and interpretation in the ophthalmology and respiratory disciplines. Our portfolio of solutions offers deep clinical expertise, unique technology, and exceptional service for our partners, sponsors, and CROs.

THERAPEUTIC SPECIALTIES

OPHTHALMOLOGY EXPERTISE

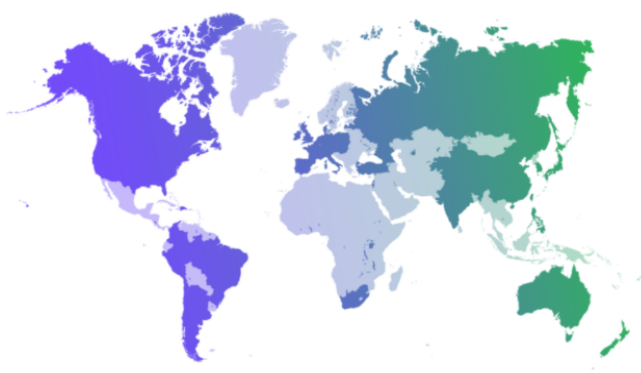

MERIT's expertise in ophthalmology includes imaging management and analysis services for clinical and preclinical studies, with experience from over 145 completed trials. From clinical site certification through grading data export, MERIT seamlessly manages each step of ophthalmic clinical trial imaging.

RESPIRATORY EXPERTISE

MERIT's standardized collection and consistent interpretation of spirometry data ensures accurate, actionable outcomes. By centralizing your spirometry review with MERIT, you can be sure your data are in the hands of qualified respiratory therapists who are committed to personalized service.

EXPERIENCE BY THE NUMBERS

SERVICES

IMAGING SOLUTIONS

MERIT's exceptional, full-service ophthalmology core lab services have supported numerous Phase I-IV clinical trials around the globe.

RESPIRATORY SOLUTIONS

Our respiratory solutions are built on our extensive experience in the performance and analysis of complex respiratory clinical trials.

STUDY MANAGEMENT

For each project, we appoint experienced project managers who focus on the details that drive on-time and on-budget product development.

SITE MANAGEMENT

Our team effectively manages site training and certification for clinical trials in multiple ophthalmic and respiratory indications.

QUALITY ASSURANCE

From HIPAA, to 21 CFR Part 11, to GDPR, we are fully immersed in the regulatory requirements for FDA-approved drugs and medical devices.
