

We help
keep
jails safe

TKC Telecom

Our customers tell us that their phone service is too complicated. Pricing structure and contracts are too complex, and they get complaints about inmate's family and friends receiving poor customer service. Our goal is to change all of that ...

NEED MORE?

We've got that too ...

Get to know, TKC Insight, our add-on investigative phone analytics system, available for those locations that want the most detailed information possible.

What does TKC Insight do?

- Works with your existing TKC Telecom System
- May improve sound quality
- Know who your inmates are talking to in seconds with call mapping
- Speaker identification for inmates and non-inmates
- Identify pin imposters
- Reports & Graphs with user defined range
- Translation to transcription tools allow you decipher over 50 languages
