ROLLING PAPERS

CYCLONES™

PRE ROLLED PERFECT CONE

THE BEST SMOKE YOU'LL EVER SELL!

FYI: Sales of these wraps are doing phenomenal! Your customers have spoken! Cyclones are the world's first pre-rolled, flavored tobacco wraps. The cone style of rolling cigar wraps has become very popular due to its unique burning characteristics. However, rolling such a shape is a difficult and messy process for most. Cyclones instantly remedy this problem as they are already pre-rolled "Cyclone" funnel shape allows the user to easily place their tobacco within the wrap with no spillage. A built-in paper filter tip and included packing tools add to the convenience of Cyclones! Store owners have raved about this product since its launch in 2004. Cyclones have an extraordinary profit margin, high demand, and a very long shelf life.

CYCLONES™ PRE ROLLED TRANSPARENT CONE™ CLEAR™

What are Cyclones™ Clear? They're a cone made from Asiatic Cotton Mallow®, glycerin and water. They're NOT a rolling paper, and they're NOT a cigarette tube! They're a totally new concept in smoking - closer to smoking a pipe. Cyclones™ Clear have printed tips that show through the clear cone - (check it out in the photos - this product is COOL!). Smokers have been unanimous in their approval. Cyclones™ Clear burn much slower than a cigarette paper and are a smoking tube. Not to be sold with cigarette tobacco. Their burn rate is too slow to be used with cigarette tobacco.
