They Are Not Plastic.

Reviewed in the United States on February 27, 2021

First, and most importantly, they are cellulose - which is plant fiber. They are not plastic. There isn't any plastic in these at all & people who leave ignorant reviews probably shouldn't be slapped, but they should be educated.

I love cellulose wraps. I hate the taste of paper or leaf. These aren't harsh the way most wraps are.

Make sure you use the stick & pack them properly to get a good burn.

If it seems loose on a side, they're still fine, just wet your finger & stick it down & it works perfectly.
