Love this product and would love to brand it in our brand. Is it possible to private label tips lotion in a backbar and retail size?

**Not sure it worked**

The instructions say to leave on and then gently push with a q-tip to extract blackheads. I'm really not convinced that just extracting without this treatment wouldn't do the same thing.

Hello, Ginger! Our sales director who is also an esthetician will be reaching out to see if we can help make sure you get maximum results from this product!
