E-Commerce Integration

We leverage proprietary technology and seamlessly integrate Ginger into your brand's website.

Branded, customized, and fully compliant, our checkout process and scheduled delivery is designed with customer retention in mind.

Whiteglove Delivery

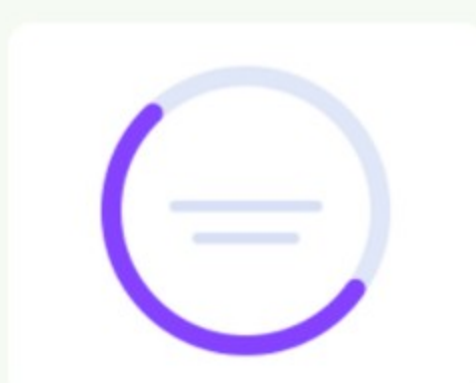

Offer scheduled delivery across California through our very own logistics and delivery network. Our drivers are fully educated on your brand and provide a white glove delivery experience, complete with custom, branded bags and automated SMS notifications throughout the delivery route.

Secure Fulfillment

You know your products are in good hands, housed in Ginger's distro hub. Compliant, licensed, expertly managed. Ginger is currently serving Northern California and Southern California.

MJBizDaily®

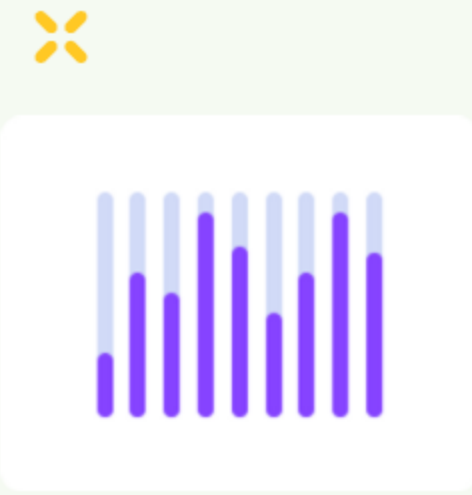

How it works

Integrate Ginger into your website

Ginger, our e-commerce API, seamlessly integrates into your website for a fully custom-branded shopping experience. Highlight your products.

run promotions, and get to know your customers' behavior...all while saving money on fees.

Stock up your inventory

Request product pickup or schedule delivery to Ginger's compliant distro hub. Our top-notch logistics team will take it from here.

Test and improve

Your success is our success and we'll give you the tools to test and improve.

Think success rates, on-time rates, service times, feedback scores, distance traveled, and more. Segment data by products, SKUs, or customers segment.

Interested in partnering with Ginger?

We'd love to hear more about the brands you work with, organizations you're part of, and everything you're about.
