

Post-Acute Healthcare Services

Clinical care is serious business, so we treat it as nothing less. Whether you're searching for Rehabilitation, Skilled Nursing, or Short-Term Care services, you can rely on our highly trained team to provide care not only for the body, but for the spirit. There is a lot more to our Health Center than state-of-the-art care, because there is a lot more to our residents than their medical histories. They come to us with incredible pasts, varied tastes and different views of the future. Our job is to respect the first, serve the second, and make sure the third is always bright.

Rehabilitation

Recovering after an injury, illness or fall can be daunting, but it's a lot easier when you have a skilled support team you can rely on. The therapists at our communities love what they do, which means that they're willing to go the extra mile to make your recovery

process as smooth as possible. So if you have suffered a life event that has you feeling less than your best, you can trust them to motivate you, support you, and celebrate you when you're on your way home. Our Rehabilitation services include:

- Physical Therapy
- Occupational Therapy
- Speech-Language Pathology
- Short-Term Rehabilitation Stays

Short-Term Care

At Trilogy Health Services, our family extends far beyond the seniors who call our campus home. It also includes seniors who may be staying with us for a shorter period of time. Those who take advantage of our Short-Term Care services could be staying with us for a few days or a few weeks. Regardless, we treat them each like family from the moment we meet. We're proud to offer:

- Respite Care
- Adult Day Services
