SERVICES

INDUS Road & Bridge (IRB) performs primarily Bridge and walls construction as a subcontractor, as well as other concrete works, focused on DOT projects for the states of Southeast US and PPP projects.

Our company main values, which we watch carefully that they are transmitted to and by all of our employees, are integrity, respect, determination to meet our goals, honesty, pride of our work, quality, efficiency, professionalism, safety at work, camaraderie and unity.

IRB is considered among our clients and partners the best option to mitigate budget and schedule risks. We are cost and time effective, without compromising quality or safety, and because of our long-term thinking, always with our customer service in mind. We carefully choose who to work for, as we look for the same honest approach from our clients.

Our principal strength is the added value that our team gives to our client; not only the wide experience accumulated in only 4 years, but the strong core of a management and operations teams that has been working together during the past years in complex design & build projects. We are the subcontractor with the largest experience and best references of working on design and build projects in Texas and other states.
