FAQs

### Key benefits

- Real-time job costing for materials, labor, subcontractors, and equipment. See where you stand across all your jobs, then zoom in on any given one to see real-time performance by phase of work.
- Flexible and robust invoicing methods, including progress invoicing, pay apps for commercial work, schedule of values, and more. Whether you bill fixed price or time and materials, Knowify can help you save hours in your invoicing process.
- All the other tools you need to run your contracting business, including contract and change order management (with built-in e-signature capture), scheduling, time tracking, mobile access from the field, team notifications and alerts, and more!

### How it works with QuickBooks

Sign up in seconds: Just click 'Get App Now' and Knowify will automatically import all the relevant data from QuickBooks.

No more double entry of invoices, bills or payments. Knowify keeps jobs, clients, vendors and items in sync bi-directionally, and syncs all invoices, time, payments and expenses for you seamlessly. You can even import all your expenses from QuickBooks for job costing purposes!

Keep the accounting and operational parts of the business in sync and focus on getting more jobs and helping your customers.

### Details

The construction industry is demanding higher efficiency and professionalism from all of its players. You cannot let your business fall behind. Knowify will help you step up.

Trusted in the US, Canada, UK and Australia, Knowify is the ideal solution for forward-thinking remodelers, residential contractors, and commercial subs that want to get an edge in the market by running a more efficient and professional business.
