Job costing and estimating

With Knowify's powerful job costing tools, you can plan your jobs and itemize your labor and material budgets to create comprehensive cost estimates. These estimates can be translated into a bid with a single click. Then, you can track materials, labor, subs, and equipment against budgets.

[VIEW FEATURE →](#)

Bids, contracts, and service work

You can quickly create bids and contracts on your own letterhead and send them through Knowify for electronic signature. You can also quickly create service tickets and schedule technicians on work orders.

OWNER

"It's brought all the people in the business into one platform."

CONSTRUCTION SOFTWARE IN SYNC

Knowify integrates seamlessly with your accounting system

Bookkeeping records are sensitive—that's why business owners tend to keep their QuickBooks closed to all but a few select users. Knowify is designed to be a distributed system, accessed and used by all of your employees. We have built-in workflows and collaboration capabilities that allow your team to work independently without you sacrificing mobility. Put business efficiency back into the driver's seat without losing the important accounting / bookkeeping function provided by QuickBooks.

QUICKBOOKS INTEGRATION

without losing the important accounting / bookkeeping function provided by QuickBooks.

QUICKBOOKS INTEGRATION

INTEGRATIONS / PARTNERSHIP

Knowify is your hub to access more services

e-Payments

Get paid faster by offering easy, familiar card or electronic payment options.

Time tracking

We've brought together three best-of-breed options.

Permitting

Knowify brings you the #1 solution for seamless, electronic permitting.

Other apps

We partner with industry-leading groups to deliver relevant business services to you.

EXPLORE SERVICES

Secure data

Your data are protected by powerful encryption technology and backed by an IT staff with decades of experience in cybersecurity.

Accessible everywhere

Use your desktop computer, laptop or tablet to enjoy Knowify, the most user-friendly, cross-platform experience in business management software.

Available always

Knowify is a web platform available 24x7 via your web browser. Whether you do your business at home or all over the world, Knowify will be there for you.

Hi 🤖

Knowify offers the best in modern technology and business practices adapted for your small or medium sized construction business. The Knowify system gives you powerful tools to manage administrative tasks like time tracking, scheduling, purchasing, bill paying (accounts payable), contract management, change orders, invoicing (accounts receivable). Knowify takes all of the important but hard to manage and paper intensive areas of your business and puts them up into a secure, easy to use, always accessible online platform.

Knowify is designed around tightly integrated modules covering each of the major administrative areas. This integration dramatically increases efficiency and reduces error. For example: Do you have multiple outstanding time and materials or cost-plus contracts specifying different rates depending on the client and resources involved? No problem: our contracts module connects seamlessly with time tracking, purchasing, and invoices to ensure that the products and billable time covered by your contracts are billed correctly.

Sign up for Knowify today and get your first two weeks free. Starting your third week, billing will occur on a month-to-month basis. We won't lock you into a long-term contract, and you can cancel at any time. We are confident that once you've tried the power of Knowify in your business, you will see the value in running your business on our platform. Sign up today, risk-free, and let us help you know your small or medium business better.

Would you like to see it in action?
