Waypoint 5lb Bag

Waypoint is toasty, balanced, and full-bodied with strong flavors like cacao and brown sugar. One of our staple dark roast coffees in the cafes is now available to you in a 5lb bag. Perfect for having a lasting supply of quality cafe coffee, while you work from home. With this bag, you'll even have enough to share.

I was initially hesitant to upgrade to the 5lb bag but I've found it's a great value and I enjoy it quickly enough to make it worth it.

Item type:
Universal Grind

Drinking so much of this stuff so I've upgraded to the big boy package. Not only is the coffee amazing, but the online ordering and delivery has been flawless.

I always stop for a Compass Coffee when I'm in DC-- now I can enjoy it at home!! I just received my first order a few days ago, which I enjoyed on my patio this morning--while thinking of good memories of visiting in person when in DC! A wonderful start to my day!!

In these dog days of covid, days blur together and mornings can be a slog. One of the best things about waking up is the promise of a warm, toasty, and delicious cup of Compass to ease into the day. The best part of waking up is truly Compass in my cup!

Item type:
Whole Bean

Coffee for 5 lb bags is so good, I am thinking of just stockpiling it.

Waypoint is the best! Super dark but chocolate-creamy. We'd been loyal drinkers of another brand for years until we tried Compass--no turning back now! Also love that we can get the large bag and refill our small tin.
