Rich C.

- Experience: 30 years
- ASE Certified
- Master Automotive Technician

Absolutely top notch. While I was skeptical of the idea originally Richard came in and blew me away with the quality of service that was done. He even tackled things I didn't even expect to be taken care of. My business hasn't just been earned, it's been won handily, and a bar has been set for all future mechanics to follow suit.

Very knowledgeable and helpful. Took the time to explain what was going on and offered solutions. Would definitely recommend him and Wrench to anyone who needed help. Can't say enough good things about Michael. Car troubles can be so stressful especially when it's your work vehicle. He got us back up and running so we could finish our work. Thank you!

Jose R.

- Experience: 17 years

Jose did an excellent job. He took care of what I needed, then checked my car for all the essentials, and gave me some tips about what to look for. He filled up my radiator to ensure that I had enough coolant/water for my car. I couldn't have had a better technician! If I need Wrench's services again I don't think I would want anyone else to help me out!
