COVID-19 Update

Wrench is deemed an essential service and remains open during COVID-19 county and state emergency response mandates. We are committed to protecting the health of our employees, customers, and community and have implemented services and policies to address these new challenges. [Learn More](#)

Benefit from quicker service times

The average Wrench Fleet service takes 2 hours instead of 2 days in a shop. Eliminate the need to take vehicles out of commission for days for scheduled maintenance or routine repairs.

Wrench Fleet Solutions provides an instant quote for cost

An experienced Wrench technician will arrive onsite to perform the services

Receive real-time updates and a full service report and receipt after completion that is stored on your account for review anytime

A dedicated Wrench Fleet Solutions account manager ensures the success of all your services

Big or small: Wrench Fleet Solutions works for you

While we came to Wrench primarily for the convenience, we found that **the cost savings has been incredible**. We've not only saved time but the cost of paying for employees to drop off, wait and pick up vehicles in the shop. Our dedicated Wrench technicians are **flexible with scheduling** and more on top of routine maintenance than we were. That means our repair, parts, and labor costs are down and we're not paying for vehicles to be towed either.

Rob Haggard, Office Manager

Goodbye Graffiti

Prior to Wrench, repairs to our vehicles could take up to two weeks and we had no visibility into the status of the repair. Now we get status updates on our vehicles' repairs and get them back on the road within **seventy-two hours** on average. The transition to Wrench was easy and worth the change as **we've saved over 2,000 hours in labor** and thousands of dollars that we can now re-direct back into our commercial landscaping business to continue providing quality service to our customers.

Rob Tetz, Vice President of Fleet & Facilities

Monarch Landscape Companies

with a **personalized approval system** for your team.

Safety by design

Safety for your vehicles

Wrench technicians are **certified**. After each job, you'll receive a **full safety checklist** for your vehicle, including information on dashboard lights, tire tread depth, and fluid levels.

Safety for the environment

Wrench technicians **dispose of fluids safely**. Wrench Fleet Solutions also provides an **oil extraction service** that reduces the risk of fluid spills. We work hard to ensure that the environmental impact of your services is as low as possible.

Safety for you

Wrench Fleet services eliminate the need to travel or come into contact with others. Our **"Contactless Service"** protocol enables customers to communicate remotely about vehicle key hand off for limited interaction or place a key in a communicated drop-off location to be picked up by our technicians.

Preserving employee and customer health is of utmost importance, now more than ever

In these uncertain times, Wrench will continue to ask ourselves what we can do for our clients and our community. We're therefore expanding our fleet services with on-site vehicle disinfecting to combat Coronavirus (COVID-19).

Wrench is mobilizing to help fleets cope with the new concerns caused by COVID-19 realities—within their businesses and ecosystems.

Contact fleets@wrench.com or call us at 888-550-4356 for booking information.
