Firepower Inc. is “In Business for Life Safety.” We are a local company committed to protecting your home or business with a comprehensive combination of life safety solutions and unmatched personal service. Our end product is the peace of mind our customers enjoy from knowing that a wealth of experience, innovation and proven performance is included with every system.

Firepower’s services include design, installation, inspection, repair, maintenance and 24 hour monitoring for both commercial and residential applications.

Firepower is a UL Certified company, and all services are performed in accordance with the current NFPA 72 Standards. Our technicians are NICET Level II through Level IV certified for fire alarm systems.
