

Aspiration: A strong desire to achieve something higher or great.
Merriam Webster

ASPIRE HIGHER.

Aspiration. It's a level above ambition. Ambition can be driven and transactional. Aspiration incubates at a higher level. It's emotional. Deeply felt. It comes from the brain. And the heart. And it's often fueled by hard work and sacrifice. And WCC is the place that turns high aspirations into passions and professions, and success. Creating a learning culture where aspirations thrive is really what sets Washtenaw Community College apart. We offer a renowned faculty, a nationally recognized Quality education. And flexible access to all... in person, online, or combined. Doctor. Lawyer. Engineer. Officer. A better job. A more meaningful career. A better life for my family. Promotion. Recognition. A promise made to myself. Or someone I love. We never forget that as diverse as our students are by every measure, they aspire to something greater. And we are the educators who respect that. And this is the college where it all begins, with the resources you need to always, always... **Aspire. Higher.**

What do you call someone who went to Washtenaw Community College?

Employed.

ASPIRE HIGHER.

Apply or register now for fall semester.

[Enroll for fall](#)
On-campus, online or both. Classes start Aug. 30.
