[Description](#) [Additional information](#) [How-To Video Guide](#)

Tacky Traxx™ **White Sticky Mats** are designed to prevent contaminants from entering a clean environment. Each mat has 30 layers of polyethylene adhesive film. They come in a variety of sizes including 18" x 36", 24" x 36", 36" x 36", 24" x 45", 26" x 45", 36" x 45", and 36" x 60". White tacky floor mats are sold and packaged by the case – 4 (30 sheet) mats/case.

### Features and benefits:

- Bright white surface
- 30 numbered corner tabs for easy tracking of remaining sheets
- Smooth, effective surface is not easily damaged by shoes, booties, or cart wheels
- Peel-off sheets eliminate the need for messy cleaning & make it easy to maintain a clean surface
- Used in cleanrooms, laboratories, construction, service/maintenance, and other clean environments
- Available for private label

### Why Choose White Sticky Mats?

White sticky Mats feature a bright white surface that makes it easy to identify when the top layer needs to be changed. They are a nice compliment to grey and other medium colored floors. White mats are also a good color choice for cleanrooms.

### Why Track Traxx™

For over 20 years, High-Tech Conversions has been a leading manufacturer of Tacky Traxx. That's 20 years to develop, improve, and perfect the concept of a sticky floor mat. Our mats are durable and have just the right amount of tack. Go ahead and compare Tacky Traxx to see for yourself.

### An Important Tool for Contamination Control

Sticky mats are an important product for preventing outside contaminants from entering an environment. They are used in cleanrooms, industrial / construction sites, and for service-based maintenance. Typically placed in entrances or exits, these mats have a durable adhesive surface that assists in removing debris from cart and foot traffic.

White Tacky Traxx Mats can also be installed on a sticky mat frame.

### Installation:

1. Peel off the protective layer of film on the back side of the mat (opposite side that the numbers face) to reveal the adhesive backing
