These Genie LED light bulbs are specifically designed for garage door openers. They create little or no radio frequency to interfere with wireless devices. Normal, traditional LED light bulbs can cause problems with your garage door opener. Other light bulbs can be delicate and they are subject to breakage in rougher environments like the garage. Some LED light bulbs can actually interfere with radio frequencies, this affects the responsiveness or range of your garage door opener's remotes and other wireless devices. The range of your remotes will not be limited when using the long-lasting Genie LED light bulb. This LED light bulb is made to withstand the harsher environment of the garage. These light bulbs are cold weather tested and damp location rated. They function without the many inconveniences that can be associated with some other traditional bulbs used for this application. Other light bulbs can be rendered ineffective in unheated and/or damp garages, but Genie's LED bulb illuminates your damp garage down to temperatures of -30C (-22F). Garage door openers often vibrate during operation, this brings the potential to shorten the life of most normal light bulbs used in these openers. Genie's LED bulb is made of shatter & vibration-resistant materials, plus it is tested to withstand 5G of shaking force, which far exceeds normal garage door opener vibration force. Genie's quality LED bulbs provide bright, long-lasting and efficient lighting for your garage. These LED light bulbs will operate for an estimated 25,000 hours, costing approximately \$1.07/year, depending on local utilities. Get energy savings from a bulb that will last without sacrificing brightness!

- 2-Pack, this includes 2 LED light bulbs
- LED: Provides a long life with low energy
- Universal - works with all major brand garage door openers.
- Eliminates or reduces remote interference.
- Vibration and shatter-resistant up to 5Gs of shaking force.
- Light appearance: 4000 K (neutral)
- Brightness: 800 Lumens
- Based on 3 hrs/day, the estimated yearly cost is \$1.07 per year and the life expectancy is 22.8 years
- Not for use with emergency exit fixtures or emergency lights. Use only with 120VAC, 60Hz, Non-Dimmable circuits.
- The Genie LED light bulbs have a 3-year limited warranty.

It's a pretty good light bulb except I thought it was going to be brighter. I have similar LED bulbs inside my garage and they're much brighter. These are a Soft white color, the ones in my garage are a brighter more luminescent color. I actually had those in my garage opener

LED Garage Door Opener Light Bulb (2-PACK) – The Genie Company  
more fluorescent color. I actually had these in my garage opener

before these and I liked the brightness better. The other thing I thought was odd was that I spent almost \$300 on my opener system and they didn't even include bulbs for it. So that was a bummer. Anyways, I give these bulbs between a 3 and 4 rating because they aren't as bright as I anticipated/ expected.

**Nice white light**

Great addition to a 20 year old Genie garage door opener. And a lot of brightness to our garage. I like the fact it won't interfere with the remote controls. Much whiter light than the old bulbs that were in there.

**This is an amazing company**

Votes 2

This is an amazing company. I wish you made a lot more things than garage door openers. I purchased a house with a Genie opener. I'd never had Genie before - I'll never have anything else in the future. What amazes me so much is that parts are available for older doors; real people are available to walk you through setups; and parts are readily available; and customer service will help you determine what part(s) to buy. I absolutely LOVE this company!!!!

**Reasonable Cost/Peace of Mind**

Review 1

Vote 1

As expected this light fit properly into new Genie garage door openers. These LEDs do not appear to cause any interference with the remotes on these openers. Cost is higher than simple LED bulbs, but extra cost brings peace of mind that there will be no interference.

**Great lights for garage door opener(s)**

Reviews **2**

Vote **1**

These lights are bright and since they are LED, they save energy and there is no filament to break due to vibrations when opener is activated.

## QUESTIONS & ANSWERS

Ask a Question

**Q Are these bulbs the small size, similar to an appliance bulb, or are they normal sized bulbs? Thank you!**

**A** These are normal-sized light bulbs, they are not appliance size.

**Q I just had my genie garage door opener installed no light bulbs . My question is in my paper work is a different part number for the bulbs. I want to make sure that the ones you have on line is the correct ones for my opener. Model # 7055 and seial#203142220960AH**

**A** Yes, these would be the correct light bulbs.

**Q Are these bulbs 60w**

**A** These are not measured in Watts, they are 800 Lumens which would be equivalent to a 60 Watt bulb (which produces about 800 lumens of light. )
