Feature Update !! Live Symphony Meeting Analytics 📊

See how many people are attending a session in real-time. 🕒

Customers love having visibility into all occurring sessions and appointments at their event, without actually having to be in the session/appointment. 👁️

👉 Which is why we bring to you, Live Symphony Meeting Analytics! Admins can click into any Symphony based Appointment, Schedule Item, or Symphony Meeting and see the real time metrics straight from within the Cadence Platform.

Keep an eye on all sessions during your event to gather valuable insights on attendee networking and connecting. 🍷
