Could never live without this product

This is the most ingenious product invented. I've always looked and wanted something like this. Now I have a cabinet full of mugs that haven't seen the light of day since I bought my ember. I will never be without this product. I've had mine for almost 2 years. Best purchase ever made. Dream come true! Their customer service is top notch too. What more can you ask for? If only every business would follow this model we'd be in such a better world!

Former Re-Heater

The mug was a gift, better than expected. I have a history of constantly microwave re-heating my coffee; same cup 5X per cup! This product regulates the temperature so that when I pull my head out of my work my coffee is hot. Ahh, the simple pleasures of life. Thank you EMBER!

Love it!

Never knew I needed this until I tried it. I'm actually drinking less coffee since I can let it sit longer.

Best coffee cup ever

I am totally addicted to this cup. I drink my coffee very slowly. It's so nice to take that last sip at the perfect temperature.
