

What is a Nifty?

Let's start with regular digital items.

Digital Items have existed for a long time.
For example, a skin in Fortnite, or a sword in World of Warcraft, or a Neopet.

Until now, **you could never really own a digital item.**

If your World of Warcraft account goes away, your sword disappears forever. Pretty weird!

Imagine if Nike shutting down meant your Air Jordans would disappear forever ... that doesn't make any sense!

Blockchain technology has changed this.

A Nifty is a digital item you can truly own.

Nifties live on a blockchain, so no one can ever take them away from you, not even the person who created them.

Nifty Gateway lets you buy, sell, trade, & display your Nifties.

are collecting nifties.

About Nifty Gateway

Nifty Gateway was founded with a very simple mission - to make Nifties accessible to everyone

How does Nifty Gateway work?

Nifty Gateway teams up with **Top artists and brands** to create collections of limited edition, high quality Nifties, **exclusively available on our platform**. We've teamed up with people like world renowned artist **Michael Kagan**. [Apply to create with us here](#).

Each collection will be opened at a specific time (a drop), and will only be **available for a limited time**.

We will aim to do new drops about **once every 3 weeks**. After the initial drop for a collection **closes or sells out**, you will only be able to get nifties from that collection in the marketplace.

Nifty Gateway is also a **centralized, USD based marketplace for buying and selling Nifties**.

Nifty Gateway lets you **display your Nifties**, as well as **withdraw them to external wallets**, or **deposit Nifties from external wallets** into your collection.

Discover a new artistic medium.

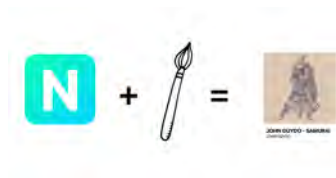

You've explored the world of physical art. Now, discover a creative outlet that did not exist until a few years ago. The digital realm offers you creative potential that you won't find anywhere else.

Get what you deserve - a cut of secondary market sales.

Nifties are the first artistic medium that allow you to receive a cut of secondary market sales. On Nifty Gateway, whenever your work is bought and sold, you receive a percentage of the sales. As an artist, you get to choose what percentage this is - it could be 5% of every secondary sale, or 50%. Nifty Gateway takes 5% + 30 cents of every secondary sale, to cover credit card processing fees and to keep our platform running.

Our technology, your talent.

You are a creator, not a programmer. We handle all of the difficult technology pieces for you, meaning that selling a Nifty with us is as easy as selling something on Ebay.
