

ULTRA-TECH™ LIGHTING

PRESENTING VARI-BRIGHT®

VARIABLE INTENSITY

VARI-BRIGHT® dimming and intensity control is a *line-dimming* technology specifically designed for magnetic induction lighting. (MIL) Unique **VARI-BRIGHT®** proprietary electronics can dim MIL output up to 50% with a 90% reduction in operating electricity at a 0.95 power factor. It is the most effective energy-reducing approach to industrial lighting where LED technology cannot work.
