CHEMTREC // Emergency Hazmat Incident Response Services //

24 Hour Emergency Chemical Incident Call Center

Who will you turn to when a quick chemical emergency response service is needed?

Chemicals have to be handled properly and carefully to ensure the safety of the people handling them. However, sometimes despite our best efforts, a chemical spill occurs.

The smart choice is to have a chemical [emergency response service](#) in place. CHEMTREC is the 24/7 call center response service that will guide you through any chemical emergency. Our Emergency Service Specialists can walk you through every step, from handling and clean up to filing paperwork. Any day, any time, CHEMTREC's call center services are ready when you need them.

By choosing CHEMTREC as your emergency response partner, your business is better prepared for disaster recovery. Our 24 hour call center is available for both your supply chain partners and customers, providing a valuable tool for anyone who will be handling or transporting your products. A CHEMTREC chemical emergency response service subscription is an easy way to continually improve your safety processes and protocols without any additional work on your end.

Our 24/7 hazmat call center will also support you and your company with an extensive set of incident response capabilities. This includes a worldwide network of responders, interpretation for more than 240 languages, and other resources—to quickly help mitigate incidents involving hazardous materials and dangerous goods anywhere in the world, at any time. CHEMTREC goes beyond satisfying the regulation requirements of having an emergency phone number on hazmat shipments. CHEMTREC offers incident management and shipping support around the clock.
