Institutional Real Estate Asia Pacific

Powerful demographic and economic trends in countries such as China, India and Indonesia are fueling demand for all types of real estate in markets throughout Asia Pacific. *Institutional Real Estate Asia Pacific* provides investors with the necessary information, data and insights to help them shape their decision making and investment strategies in the region's mature and emerging markets. The magazine features articles on capital flows, cross-border investing trends, market and property type profiles, and the latest on investment strategies, new investment products, fundraising and property transactions.
