

Imagine Everything.

QUALITY. INNOVATIVE. EDUCATION.

Pyxis is a virtual reality production company specializing in the creation of positive use VR content for educational, training, and commercial purposes.

At Pyxis, we believe that virtual reality can be used for more than just its “wow” factor. Pyxis uses VR to educate, and enhance the lives of its users, but let’s be honest...

We still bring the "WOW!"

HOW IT WORKS

We use high-end Virtual Reality (VR) camera rigs to capture full 360-Degree, 3-D environments. Did we mention that we also build our own camera rigs to capture events like never before?

All you need to do is put on a VR headset and...BOOM! You’re in an entirely new environment.

With Pyxis VR you can be anywhere!
