RELIABILITY

Trans-Global Solutions, Inc. (TGS) a leading provider of transportation, comprehensive railroad and heavy civil construction services. Our diverse capabilities include terminal development and operations, engineering and design, earthwork and new construction, track inspection and maintenance, 3rd party switching, locomotive leasing, and rail car storage, cleaning, and repair.

We recognize that industry today moves at lightning speed, and with TGS as your partner, you have access to the resources, equipment, experience, and trained personnel needed to mobilize quickly and keep you on track and moving forward around the clock.

Your transportation network and its functionality is at the heart of the daily operation of your business. Here at TGS, we are committed to improving that network and meeting your needs, large and small. Please explore our broad range of services and discover how TGS can help you stay on track for success.

NEWS PROJECTS CAREERS
