[Details](#)

Tired of hoses coming apart? Tired of inferior locking and swivel cuffs? Tired of replacing cuffs?

The new Flash Cuff™ takes durability and innovation to the next level

Rugged construction and a unique design ensure that twisted hoses and cuff replacements are a thing of the past. Additionally, the Flash Cuff™ both swivels and locks - no need to choose one feature over another.

IMPROVE PRODUCTIVITY

- Tighter connections between cuffs decreases the amount of air lost - leading to faster drying times.
- Inside diameter of the cuff is the same as that of the hose, keeping turbulence to a minimum and increasing air flow.
- Cuff allows your hoses to swivel - don't spend your time untwisting tangled hoses.
- Easy push-button lock keeps your hoses together whether you're going upstairs or around corners.

INNOVATIVE DESIGN

- Virtually indestructible. We've driven a truck over this--enough said!
- Tapered ends and shorter length allow the Flash Cuff to fit on the hose reel and keep its shape better than competitive products.
- More options: We've got 2.5" cuffs for pros that demand top air flow.

- AC10F - Hydro-Filter with Flash Cuffs
- AH201 Reducer - 2" Cuff to 1.5" Hose
- AH203 2" Male Starter
