

# More than 20 years in business

In 2020, we celebrated 20 years in business. Some of the team flew to our (then) headquarters in the Flat Iron District of New York City, and we recorded interviews with key team members. There are members of our leadership team that have been with PGC for over 12 years now and it was compelling to hear their stories of what PGC was like in the beginning, how the business has changed over the years, and what the future holds for PGC.

This is our story.
