build your
portfolio

With constantly updating balances, we make it easy to build and manage a portfolio.

GET STARTED

STACK YOUR ASSETS

With stacks, you can group your assets into categories like Banking or Ethereum Tokens. Within each stack, you can set strategies that apply target weights to your assets based on marketcap, active users, or transactions.

GET STARTED

SET STRATEGIES

Within each stack, you can set strategies that apply target weights to your assets based on marketcap, active users, or transactions.

GET STARTED

MARKETCAP   TRANSACTIONS   ACTIVE USERS

THIS STRATEGY IS BASED ON:
the value the market believes a coin is worth.

CORE PRINCIPLE:
Markets are efficient, and a blockchains value should be determined by the total cash invested into it.

REBALANCE RECOMMENDATIONS

Based on you portfolio settings, you can view recommendations about what to buy or sell.

These recommendations change automatically based on the latest market data and the performance of your portfolio

Learn everything about **Crypto.**

From Bitcoin to ZCash and everything in-between

We understand that wrapping your head around the intricacies of Bitcoin and cryptocurrency can be a daunting task, which is why we have curated a collection of resources and common terms.

At Hedgehog we believe crypto is not just a technology, but a movement that can help individuals take control of their financial future, along with globally democratizing money and returning the power to the people. From absolute beginner to expert trader, you're sure to find something helpful here.

WHAT IS...

SATOSHI NAKAMOTO	BITCOIN	BITCOIN PIZZA	HODL
SATS	HASH	BITCOIN CASH	BITCOIN NETWORK

A long time ago, on a hardware wallet far, far away...

Don't know where to go to get your first cryptocurrency? You'll need a **wallet** to store your coins and an exchange from which to buy them. Wallets can create addresses for you, sort of like a bank account number. People can use your public address to send you crypto.

People sell cryptocurrencies for cash on **exchanges**. The exchange will create a wallet for you when you buy the coin, but it's still a good idea to store your crypto in your own wallet instead of theirs.

BINANCE EXCHANGE	**COINBASE** EXCHANGE	**OKEX** EXCHANGE
KEEPKEY HARDWARE WALLET	**LEDGER NANO S** HARDWARE WALLET	**TREZOR MODEL T** HARDWARE WALLET

AIRSWAP	KYBER NETWORK	UNISWAP
DEX	DEX	DEX

WHAT IS...

DEFI	CRYPTO WALLET	ETHEREUM	MARKET CAP

SMART CONTRACT	NFT	STACK	EXCHANGE

Satoshi's secret sauce

The secret sauce behind the crypto revolution, **blockchain** is the technology that makes it possible to decentralize and publicize data over a large network of computers through a shared digital ledger.

This approach makes hacking or gaming the network very difficult, and has immense potential to be cheaper and more efficient than traditional methods of data storage.

▶ WHAT IS BLOCKCHAIN *CENTRE OF INT'L GOVERNANCE	6 MIN*	▶ BITCOIN & BLOCKCHAIN *PLAINLY SIMPLE	5 MIN*	▶ BLOCKCHAIN & THE ECONOMY *BETTINA WARBURG (TED)	15 MIN*
▶ BLOCKCHAIN & SOCIETY *ALI RAZA DAR (TEDX)	15 MIN*	▶ INSIDE THE CRYPTO REVOLUTION *HBO	14 MIN*	

WHAT IS...

BLOCKCHAIN	HALVING	MINING	FIAT
STABLECOIN	STAKING	ALTCOIN	HARD FORK

More resources. Much Crypto. Many Learns.

From databases to video games, the applications for **blockchain** technology is ever-expanding, and seemingly only constrained by our imagination. If you don't believe us, enjoy some videos starring a few decentralization evangelists and champions of crypto.
