Product description

BE SURE TO READ THIS!

Your pets can be hostile to the use of PETDEN because they are just unfamiliar at first.

Here are three tips to help your pet dog become familiar with Petden.

Tip 1. Cover the dog with a blanket or something so that it can feel safe.

Tip 2. When using Petden, encourage your pet with snacks and compliments.

Tip 3. Have enough time and patience for your pet to get used to Petden. Remember that it takes 3 years for young children to brush their teeth well.

However, you shouldn't forget the dental health is directly related to your pet's life and actively keep trying to use it.

For the first 3 or 5 times, you should even forcibly remove plaque from the pet teeth until your pet gets familiar with it.

When you neglect removing plaque, you will possibly face the situation where the tooth of your pet should be extracted and it directly affects your pet's life span.

Only the one who have lots of deep affection and love for their pets, so buy this item!

If you begin to care for the dental health from an early age of your pet, then, your pet's lifespan can possibly double.
