Justin Dopierala
Founder and President

Justin has been the portfolio manager for DOMO Capital Management since the portfolio's inception (2008). His years at DOMO has been enhanced by corporate experience with Harley-Davidson, Case New Holland, and FedEx Services. His work as an auditor in the areas of Information Technology, Plant Operations, and Finance honed his analytical skills and enable DOMO's sophisticated financial models.

BASED IN THE MILWAUKEE METROPOLITAN AREA:

DOMO firmly believes that a concentrated portfolio, chosen via a repeatable discipline emphasizing undervalued and out of favor stocks with solid fundamentals, leads to superior risk adjusted returns over the long-term. Fundamental to success with this approach is an investors patience and long term orientation, as return patterns are often out of sync with broader market patterns. We are also concerned about return of capital, and might use a larger cash position and other techniques when overall market conditions appear troublesome. DOMO Capital is the portfolio manager of the DOMO Concentrated All Cap Value Composite.
