

Mission Statement

VIDEOLOGY IMAGING SOLUTIONS mission as a leading video camera developer and manufacturer serving industrial and security OEMs is to provide the highest quality, most cost-effective products and solutions available. Videology designs, develops and manufactures video, image acquisition, and display technologies and products to OEMs worldwide. We maintain a "can do" spirit and approach against all odds. We do not give up.

We firmly believe that our customers' profitability and market success will be our own. We enthusiastically support each of our customers with:

- Technical design-in support & creativity
- Added value to core product
- Speed of response to inquiries
- On-time or early deliveries
- Best price performance
- Zero tolerance for defects
- Responsiveness to market threats
