

Aquatac Primer

Emulsion Primer for Self-Adhesive Membranes

Aquatac Primer is a polymer emulsion based primer for self-adhered membranes.

Features

- Quick drying
- Environmentally friendly due to low VOC content
- Highly tacky film provides positive adhesion to membrane
- Non-flammable during application
- Easily applied by spray
- Water based, no solvent odors
- Specially designed to provide a high level of tack on vertical surfaces

Packaging

- Available in 1-gallon & 5-gallon pails
