

Citra Lighting

Citra's LED transcends conventional concept lighting concepts by blending high-powered LEDs with sophisticated technologies and intelligent building controls to keep your workplace fully energized. Where problems exist, we see the potential to improve and optimize your workflow. Citra's LED fixtures offer brighter, smarter, and more functionality in spaces. Our advanced lighting solutions maximize protection while preserving light intensity and quality. Citra's Control System helps administrators to operate better, cleaner, and more efficient facilities. Light can do so much more today as it can help to lighten our environmental impact, making our places of work safer and more secure. Discover how advanced LED technology can help build smarter, more sustainable solutions for the future with Citra.
