Alternative assets in your IRA

With an IRA from Rocket Dollar, you are free to invest in real estate, blockchain, startups, and more!

START INVESTING

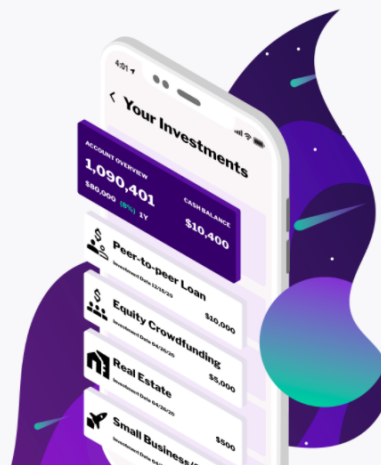

What is an alternative investment?

An alternative investment is anything outside of stocks, bonds, and mutual funds. An alternative investment might be purchasing rental real estate or investing in a cool new startup, and those are just two examples in a universe of possibilities.

Invest in more

Stocks and bonds are good assets to add to a portfolio, but there are several other types of alternative assets that can diversify your retirement funds.
