## What is a Rocket Dollar IRA?

You're probably familiar with Traditional IRAs (Individual Retirement Accounts)—the tax-deferred savings accounts with no income limits. So what makes Self-Directed IRAs different? Well, the only difference (with few exceptions) is the assets in which you can invest.

While IRAs from traditional providers do not allow those investments, self-directed IRAs are broader and do not have as many restrictions. With a Rocket Dollar IRA, we've made it easy to invest in any asset class allowed by the IRS.

Investors can use a Rocket Dollar IRA to save for retirement in a tax-deferred account and diversify their assets by investing in non-traditional assets such as startups, real estate, precious metals, cryptocurrencies, commodities, and private placements. Whether they are investments in a new business or a new real estate deal, all of these investments are easy to make and manage through the Rocket Dollar platform.

### Invest with control

Diversify your retirement portfolio for as little as \$15 per month.

START INVESTING

#### Fast Transactions

Investing is as easy as writing a check. No more waiting for custodian approval.

#### Investment Options

No preset menu of investments. Invest in anything allowed by the IRS.

#### Transparent Pricing

No asset or transaction fees. Our pricing is simple. \$360 registration fee and \$15/month.

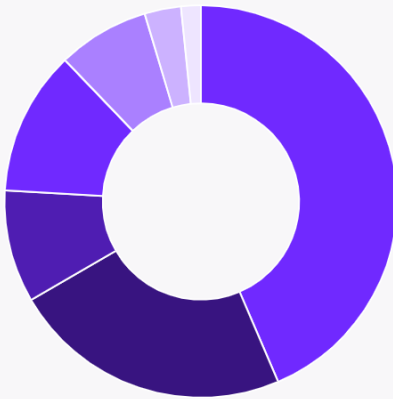

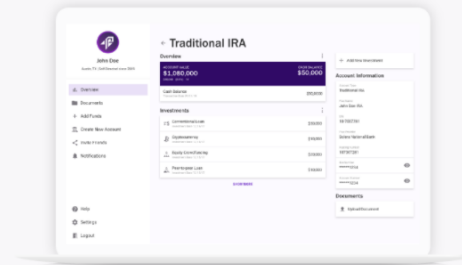

#### Tax Advantages

Enjoy deferred taxes, or no taxes, on all gains inside your Rocket Dollar account.

## IRaaS (IRA as a Service)

IRA as a Service is the technology platform we've built that allows us to provide the best investing experience possible, not nickel and dime you with account fees, investment fees, or transaction fees. Our simple subscription model ensures you know what you're paying because while some surprises are great, some aren't.
