**Bob Miller**

Small, easy to install and no more  
all of the rattling. My family is cool

## About Us

RVAC is an RV/Marine focused company that specializes in products that helps its customers engage in the recreational hobbies comfortably and worry-free.

The RVMS100S reduces Air Condition current demand by up to 70%. That means no more loud noises, shaking, flickering lights or tripped protective devices when the AC('s) kick on. Get ready for cool comfort in your RV, Motor Home, Fifth Wheel Trailer, Camper, or Van. Light, small, and easy to install.
