LET'S PLAY TOGETHER ✨

## SHARING SUCCESS IS GOOD BUSINESS

SUPERNOVA is the world's first all-star founder community open-sourcing superpowers, wisdom networks and equity. We believe it's time to dream greater and to use our powers as quantum creators to forge something new and miraculous that evolves the ways we work as one collective consciousness.

## Founder Equity Superpool

We are founders backing founders. We go beyond business as usual by sharing wins with all vs. the traditional 'winner take all' model. One cooperative of Founders pledging time, equity, products and profits. We reduce risks and game the odds like elite VC's, minus the dark matter.

## All-Star Advisory Services

We are exited founders, elite executives, and skillful operators fully invested in your success. We can be lifesavers, advisors or play interim roles for speed-to-value: M&A, strategy, funding, investor relations, sales, marketing, management, finance, legal, organization, product, technology, hiring, and work/life mastery.

## Extraordinary Ecosystem

We combine our gifts for the greater good. One global hub and synergistic network of conscious companies, buyers, sellers, investors and solution providers - all sharing deal flow as one family. The experience of doing work this way often evolves us from being transactional to transformational.
