

Subaru Loves Learning

Our Causes

At Subaru, we believe in education. That's why we support organizations dedicated to making learning as accessible as possible.

Helping schools and students in need.

Subaru of America, Inc. is proud to announce that as part of our Love Promise commitment to make learning more accessible, we are partnering with AdoptAClassroom.org as our new Subaru Loves Learning partner.

Inadequate classroom resources threaten the success of schools. In fact, 92 percent of classrooms have students whose families cannot afford to purchase any school supplies for their children. Through the partnership with AdoptAClassroom.org, Subaru and our retailers will help supply classrooms across the country with the school supplies vital to enhancing education for students nationwide.

Adopting classrooms through Subaru Loves Learning is just one of the ways we are doing even more this year to make a difference.

Subaru. More than a car company®.

This year, Subaru and its retailers are supporting 114,000 students nationwide.

A Retailer You Can Love

Whether learning from home or in the classroom, many students in some communities lack the supplies, learning materials, and resources they need to succeed in school. That's why our retailers are stepping up to adopt classrooms to support those in need. Through our partnership with [AdoptAClassroom.org](https://www.adoptaclassroom.org), all participating retailers have been matched with a school in their local community. This support will provide funding that teachers can use to purchase school supplies and learning materials to make sure their students thrive in the classroom. See what some school principals have to say about the support they received from their local Subaru retailer and how it benefits their students.

Subaru White Plains

“

We are very grateful to have companies in our community like Subaru White Plains supporting the social, emotional and academic growth of our students. We appreciate the support that Subaru is providing to our students to learn 21st century skills that will engage them in critical thinking, design, collaboration and inspire them to pursue their aspirations and dreams, the many tenants of our district's mission and vision. Subaru is a role model for our students, showing the importance of supporting others within the community which is what we hope to instill in our students. We thank Subaru for their dedication to school communities.”

- Principal, Church Street Elementary

American Association for the Advancement of Science

The American Association for the Advancement of Science (AAAS) seeks to nurture students' interests and talents in science, technology, engineering, and mathematics to help build bridges to future careers in these fields.

Since 2015, we've partnered with AAAS through the Subaru Loves Learning initiative to donate over 277,600 science books to schools in communities across the country.
