

Automate your rewards program.

RG Integrate

LET'S TALK

Save Valuable Time in Your Workday

We know the integrations that save you time can be complex. That's why we're building them for you. RG Integrate makes it possible to automate reward and incentive programs without relying on in-house developer resources. By seamlessly integrating digital gift cards with the existing software applications and systems your team uses daily, RG Integrate drives meaningful results while saving valuable time in your workday.

The Software You Already Use

Like most office workers, you likely use multiple software applications during your workday, such as HRIS, HCM, MAS, and CRM systems. By integrating Tango Card's reward delivery platform with 1,000+ popular apps in the Workato directory—spanning HR to sales and marketing to IT—you're no longer beholden to manual processes.

Below, we lay out some of the ways RG Integrate makes that easier for you.

Namely

Namely enables you to trigger rewards for employee anniversaries and birthdays. No more time wasted downloading spreadsheets to manually send gift cards each month to deserving employees.

[Check out our out-of-the-box integration.](#)

Slack

Our peer-to-peer reward offering—Reward Bot—makes it easy for your employees to quickly send each other rewards in Slack. Build public recognition for a job well done and show employees their efforts matter.

[See our out-of-the-box recipe.](#)

HubSpot

HubSpot lets you send gift cards as part of your next engagement campaign. Instead of downloading a spreadsheet from your CRM to email gift cards for completing a demo, let the automation handle it so you can concentrate on generating more leads.

How It Works

RG Integrate enables companies to automate reward and incentive programs without relying on in-house developer resources. Customers are able to create automations themselves within Workato or engage Tango Card to deliver a solution that seamlessly integrates digital gift cards with the software applications your company or team uses daily.

Every RG Integrate project is customized to fit your program needs and application landscape, and the complexity of the project will determine the fee structure and time to deliver. That said, we've outlined the five phases of every project.

The first step is emailing us at sales@tangocard.com to set up a time to discuss your reward and incentive program goals and learn how our RG Integrate team can help you meet them.

1. Discovery

We work with you to develop a detailed use case and high-level project plan.

2. Planning

You receive and sign off on a detailed project plan and timeline.

3. Execution

We build the integration for your desired workflow automation.

4. Launch

The integration goes live, and we transfer our knowledge to your team to keep it running.

5. Maintenance

We handle maintenance for the integration, so you don't have to worry about it.

1,000+ Available Integrations

Automate your workday with over 1,000 available app integrations. With RG Integrate, manual rewards are a thing of the past. Below, you'll see a sample of the available apps. To check out the full app directory, [click here](#).
