### Our Focus Is Mushrooms

With over 40 years of mushroom growing experience, we grow our own mushrooms and that's what we stick to.

### Practitioner Approved

Over 1519 practitioners are prescribing Real Mushroom Extract. We know and trust the level of quality we provide to our patients.

### Add To Your Recipes

Spice up your favorite meals by adding mushrooms. Soups, stews, bone broth, you name it.

### Pet Friendly

Healthy and safe for your pets too. Prescribed by many holistic veterinarians.

### No Grain Fillers, Only The Good Stuff

All our products are 100% mushroom with no grains, m fillers, unlike so many other 'mushroom' products out th

### Verified Active Compounds

All our products have verified levels of beta-glucans, th important compound in mushrooms.

Cordyceps gives me a great steady energy and endurance for instense Crossfit work outs. It's effects last all day, even with three kids in tow.

Casey

## What Customers are Saying

### Smells right, good quality.

Matthew Walden on Dec 22, 2021

Smells right, good quality. Most products available are the mycelium, and these are the fruiting bodies. I do see enhanced stamina with physical activity, I do believe something to these, more than placebo. I plan to keep using these, and the Reishi. I make my own capsules of these from the pouches with 00 size capsules, and ta daily of the Cordyceps, usually 1 of the Reishi.

### I love the quality of the cordyceps powder.

ELAINA on Dec 22, 2021

I love the quality of the cordyceps powder. The color is a deep gold. The energy of the powder seems strong. I only take 1/4 tsp. at a time. I notice my mental clarity good since adding the powder every morning to my coffee. I will continue to use Real Mushrooms as their quality is way above any other product I've tried. I also use defenders, turkey tail and lions mane powders off and on.

### ill continue taking this supplement

**thehammer on Nov 03, 2021**

I started taking this product to help with proteinuria (I saw a study done where Cordyceps significantly reduced proteinuria). I've been taking a gram or so of this product in my breakfast for a couple of months, but I can't say I have seen a definite reduction in proteinuria. However, I believe the participants in the study were taking 3-5 grams per day, so maybe I will need to up my dosage and see if there is a reduction in the proteinuria. I do notice that there has been a reduction in the worn-down, fatigued feeling I often have from adrenal fatigue. I don't think it "cured" my adrenal fatigue, but it has improved it. I will continue taking this supplement for a few more months with an increased dosage to see what happens.

### My energy level is better

**Carole Travis on Oct 27, 2021**

I take it daily in my coffee in the morning. I have had cancer, and am 79 years old. My energy level is better, I have been able to have longer walks and believe the cancer is at least in part responsible. I take it everyday and will not stop.

### The product is great.

**Alesia on Oct 11, 2021**

The product is great. I add it into my morning coffee and it doesn't taste like mushrooms but adds somewhat of creaminess to my coffee. With all the health benefits from energy to anti-aging properties, you can't go wrong with this product, plus it's pure mushrooms with no fillers.
