

The screenshot displays the Comcast Business SecurityEdge website. At the top, there is a navigation bar with 'COMCAST BUSINESS' logo, 'PRODUCTS', 'SUPPORT', and 'MY ACCOUNT' links. A phone number '(866) 478-1342' and a 'SIGN IN' button are also present. Below the navigation bar, a secondary menu includes 'INTERNET', 'PHONE', 'BUSINESS TV', 'MOBILE', 'SMARTOFFICE', 'CLOUD SOLUTIONS', 'CURRENT DEALS', 'HELP ME DECIDE', and a search icon.

The main content area features a hero section with the heading 'INTERNET SECURITY' and the main headline: 'Helping safeguard your network isn't optional. It's essential.' Below this, a sub-headline reads: 'When it comes to harmful cyberattacks, Comcast Business SecurityEdge™ can help keep your business protected across all devices on your network.' There are two buttons: 'SHOP NOW' and 'SEE IT IN ACTION'.

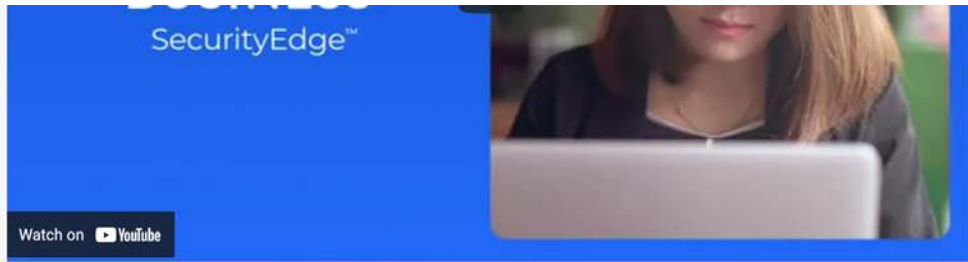

A secondary navigation bar below the hero section lists: 'CYBERATTACK RISKS FOR SMALL BUSINESSES', 'OVERVIEW', 'FEATURES', 'BENEFITS AND STATS', and 'REQUEST A QUOTE'.

A promotional banner for a '\$650 Visa Prepaid Card' is shown. The card image displays the number '7867 5678 2345 5978' and the name 'COMCAST BUSINESS'. Text next to it says: 'Online only: Get up to a \$650 Visa® Prepaid Card with a qualifying offer'. A note below states: '(up to \$450 when ordered through an Agent). Plus, all Comcast Business Internet tiers are bundled with Comcast Business SecurityEdge™. Offer ends 1/3/22.' A 'SHOP ALL OFFERS' button and a 'Price & Other Info.' link are also visible.

The next section is titled 'The cost of cyberattacks can be high for small businesses'. It features three icons and corresponding statistics:

- Globe icon:** 65% of small to medium businesses (SMBs) have reported a cyberattack¹, while 2 out of 3 of all cybercrimes target SMBs².
- Clock icon:** The average downtime due to a ransomware attack is 21 days[†].
- Calendar icon:** It can take an average of 287 days for a business to fully recover from a cyberattack^{††}.

At the bottom, there is a video player for 'Comcast Business SecurityEdge™ Product Showcase'. The video thumbnail shows a woman's face and the Comcast Business logo. Controls for 'Watch later' and 'Share' are visible.

See how Comcast Business SecurityEdge can help your business stay connected and protected

A simple, yet powerful Internet security solution

Comcast Business SecurityEdge works seamlessly in the background to help block threats like malware, ransomware, phishing, and botnet attacks across all connected devices. Plus, helps to prevent guests and employees from accessing compromised websites and infected links while on your network.

Advanced cybersecurity

Scans every 10 minutes and updates lists to help protect your business from newly emerging cyberthreats.

Robust cloud-based solution for all connected devices

Any device connected to your Comcast Business network are covered. Including smartphones, laptops, wireless printers, and more - includes employee and guest devices.

Easy set-up and deployment

Real-time visibility

COMCAST BUSINESS SECURITYEDGE - Specimen - Class 42
