

Cuemath is different. No, really!

The Cuemath Method is based on five powerful learning principles that make a Cuemath class completely different from a regular class.

	REGULAR CLASSES	CUEMATH CLASSES
END GOAL	<ul style="list-style-type: none"> Superficial completion of coursework 	<ul style="list-style-type: none"> Deep mastery of concepts Link
TEACHING APPROACH	<ul style="list-style-type: none"> Teacher tells the answer directly 	<ul style="list-style-type: none"> Teacher cues the student to discover the answer Link
STUDENT PARTICIPATION	<ul style="list-style-type: none"> Student learns passively by watching 	<ul style="list-style-type: none"> Student learns actively by doing Link
CONTENT EMPHASIS	<ul style="list-style-type: none"> The WHAT - facts, formulas, procedures 	<ul style="list-style-type: none"> The WHY - the reasoning behind the WHAT Link
PRACTICE STYLE	<ul style="list-style-type: none"> Through abstract, repetitive drills 	<ul style="list-style-type: none"> Through real-world application Link
