The nation's leading health systems choose EverCheck

## The tools and insights you need to feel confident in your compliance

EverCheck connects our clients with critical compliance data directly from the primary source, empowering better decision-making and confidence in caregivers' work status.

**Inbox**

Afternoon, Jena

• 3 tasks

- Submit job requirements  
Beacon Health
- Submit your credentials  
Beacon Health
- Complete employee training  
Beacon Health

**HR**  
Trust caregivers have the active, valid licensure required for their roles at all times.

**Education**  
Track CE renewal requirements, build and assign courses, and monitor completions.

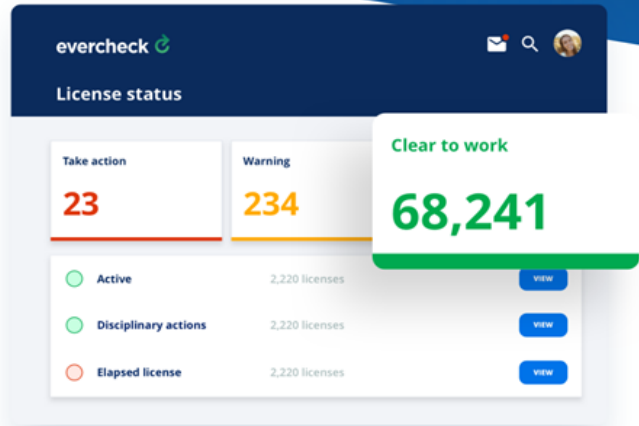

**Credentialing**  
Take the credentialing and privileging process digital and make it simpler for providers.

## A better approach to verification

Daily, automated primary source verification meets and exceeds the standards set forth by The Joint Commission and other regulatory agencies. Learn about critical changes as they happen, not after.

## A paperless solution to provider credentialing

Providers maintain a digital credentials profile, sharing updates with you digitally and submitting all requirements for initial applications and reappointments from their desktop or mobile device.

## A simple way to track, manage, and create CE

Monitor employees' progress on CE required for licensure renewal. Build beautiful courses and assign them to employees. Track course completions and ensure compliance automatically.
