## Deconstructing Disarmament and Reconciliation Programs in Northeast Nigeria

January 10, 2022 | [Jacob Kurtzer](#), [Obi Anyadike](#)

Disarmament, demobilization, and reintegration (DDR) programs aim to change the battlefield and bring peace to northeast Nigeria, but they raise serious questions about resource prioritization and justice and accountability for perpetrators of violence.

COMMENTARY

## This Is the Year That Will Be (Maybe)

January 10, 2022 | [William Alan Reinsch](#)

In this week's column, the Scholl Chair looks ahead at 2022 and outlines recommendations and predictions for the Biden administration's economic policy for the rest of the year.

COMMENTARY

## Gas Line, Q4 2021

January 10, 2022 | [Nikos Tsafos](#)

CSIS energy expert Nikos Tsafos reviews global natural gas developments in the fourth quarter of 2021, focused on some of the changes that took place in LNG markets in 2021 and the energy security challenge of sky-high prices in Europe.

REPORT

## 2022 Is the Year of Decision

January 10, 2022 | [J. Stephen Morrison](#)

In a new white paper, the CSIS Commission on Strengthening America's Health Security argues that the moment has arrived to rethink U.S. approaches, at home and abroad, in both managing the ongoing pandemic and in creating better preparedness for the future.

COMMENTARY

## The Importance of Water in Foreign Policy

January 10, 2022 | [Conor M. Savoy](#), [Janina Staguhn](#)

Infrastructure, climate, inclusive development, and finance are examples of areas where addressing water challenges can play a significant role in promoting the Biden administration's foreign policy objectives and advancing U.S. priorities in the development space.

COMMENTARY

## Haiti's Problematic Electoral Dynamics

January 10, 2022 | [Georges A. Fauriol](#)

Georges Fauriol analyzes Haiti's dysfunctional electoral dynamics as an additional factor in the country's deepening crisis going into 2022.

COMMENTARY

### Saudi Arabia's Hydrogen Industrial Strategy

January 7, 2022 | Jane Nakano

Clean hydrogen could strengthen Saudi Arabia's economic security by diversifying its energy exports in the increasingly carbon-constrained world while leveraging its hydrocarbon resources and industrial capacities.

INTERACTIVE

### Sinpo-class Submarine Damaged During October 19 Test Launch

January 7, 2022 | Joseph S. Bermudez Jr., Victor Cha, Jennifer Jun

In Beyond Parallel

North Korea's SINPO-class experimental ballistic missile submarine suffered a malfunction likely resulting in damage during the October 19, 2021, SLBM test launch.

COMMENTARY

### World Leaders Should Acknowledge That IP Protections Facilitate Vaccine Access

January 6, 2022 | Andrei Iancu

President Biden's recent statement urging widespread support for waiving IP protections for Covid vaccines assumes there's a global shortage, which an IP waiver would address. However, IP protections deserve the lion's share of the credit for why we have vaccines at all.

COMMENTARY

### What to Expect from Shale This Year

January 6, 2022 | Ben Cahill

Shale companies are still wary of an investor backlash if they ramp up spending. But it is safer—and perhaps even necessary—for companies to grow again.

BLOG POST

### Spotlight - Malaysia: January 6, 2022

January 6, 2022 | Sophie Lemière

From The Latest on Southeast Asia

Since mid-December 2021, Malaysians across eight states have been victims of flooding caused by a very intense monsoon rain. The situation is ongoing with more rain and high tide expected on the east coast of the country.
