Description

Phoenix Dry Max- Dehumidifier- Red 4036000

This listing for the Red model. For Blue, as pictured, see [4036060](#)

Description

Ultra-Compact, Large Category, Integrated Handle and Wheels

*** NOW Part Number [4038500] With Bluetooth-Enabled LGR Dehumidifier

The Phoenix Dry Max is 6% smaller than the closest dehumidifier and yet it still has an integrated handle and wheels as well as onboard storage for the power cord and condensate hose!

The ultra-compact design of the Phoenix DryMAX makes it the smallest "Large Category" LGR on the market today. This unit removes 80ppd@AHAM, uses only 5.7 amps, and weighs a mere 63lbs. The Phoenix DryMAX has 170CFM of airflow and comes equipped with a heavy-duty condensate pump, epoxy-coated coils and superior MERV-10 filtration.

The all-new Phoenix Micro-Channel condenser allows us to pack so much performance into such a small dehumidifier.

The feedback on the stacking of the AirMax was so positive we made sure to build superior stacking into the Phoenix Dry Max. We've also added a new four line display which provides you with all the information you need to take readings directly from the home screen.

Check SteamBrite Archived Q&A's

A new Status Bar is located at the top of the new control panel to give you instant feedback about the dehumidifier from across the room.

Remove only four fasteners and you have easy access to service the unit.

The new Phoenix Dry Max pairs perfectly with our industry leading AirMax. Together you have a compact, portable, stackable, rugged drying system.
