Product Description

All Natural with only tw

Pure Beeswax - employing thousands of worker bees

It all BEE-gins with beeswax. As hobbyist beekeepers, beeswax was our first choice to try for a natural orthodontic wax alternative. We were delighted to find that it works great! It is easy to apply, long lasting, & provides excellent braces coverage unlike anything ever BEE-fore.

Extra Firm to Stop the Sting

BWOW Makes Braces Discomfort Buzz Off!

BEE-hold, we are not BEE-ing cheeky, droning on, blowing smoke, or polen your leg... BWOW is firmer than other orthodontic waxes and that makes BWOW stick better and last longer! It holds its

Can you BEE-lieve it?

They want you to put what in your mouth?!?!

Other ortho waxes contain paraffin wax, silicone, "mystery" wax, or a mixture of the three. Paraffin is a petroleum by-product, silicone is synthetic and "mystery" wax is... well... a mystery! Not stuff we want in our mouths. We couldn't find an all natural ortho wax so we decided to create one!

shape and creates a protective barrier that stays in place. Did we mention it is easy to apply? No more rolling wax into a ball or heating it up in your hand.

Plus if it looks this good on our creepy model imagine how good it will look on you!

Don't just take our word for it

It's the Bee's Knees! #TreatYourself to fancy wax!

Life Saver!!! Best Orthodontic Wax!!

Made in the USA

BWOW Pure uses beeswax gathered by professional beekeepers in New Jersey. Honeycomb shaped single servings made and packaged in Las Vegas, NV and Huntsville, AL.

I got 99 problems but a pinch ain't one

Single Serving Portions

Pinching a little piece of wax off a strip is a pain. You always end up with too much or too little. Well no need to split and swarm away in frustration. BWOW does away with the guess work with pre-made honeycomb shaped portions that are just the right size!

It's the Bee's Knees!

I refuse to go back to regular dental wax. This stuff stays put all day through meals and warm beverages, and somehow holds its shape. I'm living with a pokey wire until my next orthodontist visit, and with regular wax, I sometimes find that the wire eventually pokes through to stab me in the cheek. Not a problem with this stuff — it keeps its shape. Best of all, you don't have to dry your bracket off to get adhesion. It's bananas. Also, I find the pre-portioned "buttons" to be super convenient.

Packaging is pretty good, and less likely to open up in a purse or back than the usual clamshell-type wax containers.

Yes, this is more expensive, but braces are already annoying enough. #TreatYourself with some fancy wax.

TL;DR - buy this.

Unhygienic

Wasn't able to use this wax because it had dust, debris and hair in it. I was NOT going to put that in my mouth. Was really looking forward to trying this product out but unfortunately had to return. The lids on the containers also pop right off, not a properly sealed product at all. Not sterile in any way. If this is what I get from a "natural" product, I don't want it.

Needs Better Quality Control

Reviewed in the United States on December 27, 2021

Size: 2 Pack Color: White **Verified Purchase**

The premise of this wax is spot on, made with xylitol, no petroleum etc. But there seems to be some quality control issues. There are black spots and lint or dust fibers throughout the wax. This can't be sanitary. Also, after closer inspection, it appears that the dots are dusted with xylitol and not actually infused in the dots.

Good portable wax option for braces

The containers for this product are cardboard which I think is better environmentally. The discs were small but my daughter says they are really easy to use. Great product.

Conforms, and molds, then hardens. Heat 2 minutes in microwave roll into a ball, place in tooth socket

and create a custom height to perfection. While still warm bite into it and you have a perfect denture

I use it under my Essix retainer. To die for.

Great all natural product but tough to put on

Reviewed in the United States on November 4, 2021

Size: 2 Pack Color: White **Verified Purchase**

Great all natural product for ortho brackets, but difficult to put on unless heated slightly. Still preferable to accidentally swallow this over the petroleum based ones from the ortho office.
