

[Home](#) / [About Us](#)

WellSky is a technology company leading the movement for intelligent, coordinated care worldwide. Our next-level software, analytics, and services power better outcomes and lower costs for stakeholders across the health and community care continuum. In today's value-based care environment, WellSky helps providers, payers, health systems, and community organizations solve tough challenges, improve collaboration for growth, harness the power of data analytics, and achieve better outcomes by further connecting clinical and social care.

The WellSky difference

WellSky is a catalyst for

WellSky takes data security seriously. We understand that

Healthcare technology expertise to our mission of powering client success. We proactively partner with our clients to deliver the right set of software, services, and analytics to meet your unique needs.

Innovation that anticipates client needs and empowers better outcomes. Today, 20% of our annual revenue is reinvested into research and development. Through advancements in technology and analytics, we're elevating care.

Positive change. We're bridging gaps in care and creating relationships across stakeholders. Above all, we envision a future where truly coordinated care is not only possible — it's the standard.

By partnering with us, you are entrusting us with your most important data. We employ best-in-class measures to ensure data security, integrity, and privacy.
